DELIBERATIVE

Hey Owen,

We received follow up edits from the OFR this morning and are conferring with OGC. With respect to the edits to the reg text, they rejected our structure of saying (a)(1), (a)(2), or (a)(3) and said that it needs to be (a)(1) through (3). There were some other minor edits to the preamble that I think we can accept and some nits in the reg text about only using ' instead of " for definitions. Rose caught a couple of other things that they either accidentally deleted or someone didn't get transmitted back to us with their edits. Attaching what they sent. Rose has a draft on sharepoint where she started making responses. Let me know if you want to talk.

Thanks,  
Mindy
